

Euroview Fold and Slide Door

The VEKA Fold and Slide door offers contemporary style, practical design and excellent reliability. The Fold and Slide door provides superior operating performance and smooth integration into any architectural style. These doors are engineered using high quality PVC window and door profiles, as well as superior hinge and locking systems that are reliable and secure. The roller track provides for a smooth glide and dependable performance with solid design and expert engineering. Choose from three to seven operating panels in various configurations. The door systems are available in a range of colors including white, clay and woodgrain laminates such as, mahogany, golden oak, walnut, chestnut and a variety of other solid colors.

All VEKA Fold and Slide doors come standard with high quality hardware. The smooth operating handles and hinges can be color matched to the vinyl or they are available in a brushed nickel satin finish. Stainless steel rollers are standard on the operating panels of the Fold and Slide Door systems

Depending upon hardware manufacturer different opening types available.

Euroview Performance Matrix

Product	Limitations			Performance	
Door Type	Sash Width	Sash Height	Frame Size	DP Rating	Test Size
Fold/Slide	36"	95"	18' x 8'	DP-30	150" x 97"

Laminate Woodgrain and Colors

Pinnacle
Performance Color Solutions by VEKA

Pinnacle® woodgrain and color laminates are inventoried at VEKA Inc., consult your sales representative for samples and details.

Generous and convenient access
All folding sashes are moved to the side to form a slim package.

Frequent use:
A side hinged or tilt/turn sash, the passage door, is operated independently of the folding sashes.

Efficient Ventilation:
The passage door can be fitted with Tilt/Turn hardware. In the secured tilt position this sash offers ventilation.

- All main profiles are reinforced with galvanized steel
- Alternative outer frame and sill sizes are available
- Thresholds can be standard outer frames or low profile aluminum thresholds to suit different installations, weather and security requirements
- Alternative beads available in sloped or sculptured designs
